Informed Consent

The Cesky Terrier Club operates an informed consent database. All information sent to the Breed Health Co-ordinator remains confidential unless the owner specifically authorizes release of the information into the public domain. Owners are encouraged to release all information, realising it is in the ultimate health interests of the breed.

Please sign below to consent to the release of the data you have provided to The Cesky Terrier Club.

Signature.....

For those not quite ready to accept open sharing of information, there is still value in submitting their results. All test information

entered into the database is available in aggregate for research and statistical reporting purposes, but does not disclose identification of individual dogs.
